Topcon	GNSS Receivers	HiPer XR - UHF 430-470 DUAL NALA - For surveyors and construction professionals who need to measure those hard-to-reach points, the HiPer XR is your ultimate solution. This lightweight GNSS receiver offers dependable performance, featuring improved signal integrity, precise tilt accuracy, and versatile communication options.	1075596-07	\$27,378.75	15.00%	\$23,446.48
Topcon	GNSS Receivers	HiPer XR - UHF 405-450 DUAL NALA - For surveyors and construction professionals who need to measure those hard-to-reach points, the HiPer XR is your ultimate solution. This lightweight GNSS receiver offers dependable performance, featuring improved signal integrity, precise tilt accuracy, and versatile communication options.	1075596-08	\$27,378.75	15.00%	\$23,446.48
Topcon	GNSS Receiver	HiPer XR - UHF 430-470 SINGLE NALA - For surveyors and construction professionals who need to measure those hard-to-reach points, the HiPer XR is your ultimate solution. This lightweight GNSS receiver offers dependable performance, featuring improved signal integrity, precise tilt accuracy, and versatile communication options.	1075596-04	\$14,043.75	15.00%	\$12,026.72
Topcon	GNSS Receiver	HiPer XR - FH915 (DUAL) NALA - For surveyors and construction professionals who need to measure those hard-to-reach points, the HiPer XR is your ultimate solution. This lightweight GNSS receiver offers dependable performance, featuring improved signal integrity, precise tilt accuracy, and versatile communication options.	1075596-11	\$24,228.75	15.00%	\$20,748.90
Topcon	GNSS Receiver	HiPer XR - FH915 (SINGLE) NALA - For surveyors and construction professionals who need to measure those hard-to-reach points, the HiPer XR is your ultimate solution. This lightweight GNSS receiver offers dependable performance, featuring improved signal integrity, precise tilt accuracy, and versatile communication options.	1075596-09	\$12,993.75	15.00%	\$11,127.52
Topcon	GNSS Receivers	KIT, HiPer VR BASE & ROVER UHF 440-470. The HiPer VR is compact, light, and packed with the most advanced GNSS technology in a design built to withstand the harshest field environments. Using Topcon's advanced GNSS chipset with Universal Tracking Channels Technology, the HiPer VR automatically tracks every satellite signal above – now and into the future. All signals, all satellites and all constellations — in a compact, rugged design, with an integrated IMU and eCompass. The HiPer VR is a complete solution and versatile in many ways. It can be used for static or kinematic GNSS post-processed surveys, as a network RTK rover with the FC-6000's/FC-6400's internal 4G/LTE cellular modem, as a UHF/FH/Longlink jobsite RTK rover, and also in Topcon's patented Hybrid Positioning workflow.	1028516-01	\$26,880.00	9.32%	\$24,557.59
Topcon	GNSS Receivers	KIT, HiPer VR BASE & ROVER UHF 405-440. The HiPer VR is compact, light, and packed with the most advanced GNSS technology in a design built to withstand the harshest field environments. Using Topcon's advanced GNSS chipset with Universal Tracking Channels Technology, the HiPer VR automatically tracks every satellite signal above – now and into the future. All signals, all satellites and all constellations — in a compact, rugged design, with an integrated IMU and eCompass. The HiPer VR is a complete solution and versatile in many ways. It can be used for static or kinematic GNSS post-processed surveys, as a network RTK rover with the FC-6000's/FC-6400's internal 4G/LTE cellular modem, as a UHF/FH/Longlink jobsite RTK rover, and also in Topcon's patented Hybrid Positioning workflow.	1028516-03	\$26,355.00	9.32%	\$24,077.95
Topcon	GNSS Receiver	KIT, HiPer VR SINGLE ROVER UHF 440-470. The HiPer VR is compact, light, and packed with the most advanced GNSS technology in a design built to withstand the harshest field environments. Using Topcon's advanced GNSS chipset with Universal Tracking Channels Technology, the HiPer VR automatically tracks every satellite signal above – now and into the future. All signals, all satellites and all constellations — in a compact, rugged design, with an integrated IMU and eCompass. The HiPer VR is a complete solution and versatile in many ways. Topcon	Software	PERPETUAL, TOPCON OFFICE + SURVEY. Topcon Office + Survey provides you with the exact tools that you need to simplify and oversee everyday land development work to reduce errors and keep projects moving forward. It includes customizable drafting and design tools for property plots, subdivision design, and land development projects. Process your data within an intuitive drafting environment to create simple or complex drawing layouts. Prepare and share your data to be used by land surveyors, civil engineers, and machine operators.	1006002-01	\$2,550.00	13.83%	\$2,213.82

Topcon	Software	KIT, TOPCON, ONBOARD FIELD, ROADS, ROBOT. Topcon Field is a powerful and intuitive field application software that enables you to collect survey mapping data and perform construction and road layout using total stations, levels, and GNSS receivers. Topcon Field is easy to use. Perform topographic and layout operations with a supportive Microsoft Bing Maps satellite image background. Carry your custom CAD standards to the field with a single screen tap; the software will instantly draw three dimensional linework and symbols.	1000104-01	\$1,610.00	10.33%	\$1,454.51
